LONGFELLOW 3

Chewings fescue

DLF SEEDS & SCIENCE

Longfellow 3 CHEWINGS FESCUE

- Rich dark green color
- Disease resistant
- Inhibits weed germination
- Tolerates poorer soils
- Good shade tolerance

QUICK FACTS: *Longfellow 3* (IS-FRC 33) chewings fescue is an elite variety with improvements in overall turf quality and especially high marks for disease resistance. It will perform well in traffic, heat and shade. With high levels of naturally occurring endophyte, *Longfellow 3* will repel surface feeding insects, thereby reducing stress and vulnerability to disease.

ADAPTATION: *Longfellow 3* is designed to be used in mixtures, typically with perennial ryegrass and Kentucky bluegrass or other mixes where chewings fescue is a desirable component. It has a rich green color that blends well and will add factors of increased disease resistance and wear tolerance to the mix.

SEEDING RATE: 4-5 lbs. per/1000 sq. ft.

2008 Fine Leaf Fescue
NTEP Evaluation - 2010 Data

Mean Turf Quality (RI)

Longfellow 3	**8.2**
Fairmont	7.9
