

Variety Highlights

CULTIVARS

FOCUS

CREeping BENTGRASS

Uses: Superior choice for greens, tees & fairways

- High performance variety
- Superior Dollar Spot resistance
- Fast establishment
- High turf quality with superior density
- Rapid repair

MACKENZIE

CREeping BENTGRASS

Uses: Ideal for greens, tees & fairways

- Excellent turf quality
- High density in all seasons
- Stress tolerant germ-plasm, with excellent summer performance
- High resistance to Dollar Spot and Brown Patch
- Excellent wear tolerance, uniform putting surface

NINETY-SIX TWO

CREeping BENTGRASS

Uses: Excellent choice for greens, tees & fairways

- Exceptional heat & summer stress tolerance
- Good rooting ability & growth during hot weather
- Exceptional tolerance to high salt & salinity
- Developed at Texas A&M
- Vigorous dense growth from Canada to Texas

TYEE

CREeping BENTGRASS

Uses: Ideal for greens & tees

- Highest rated bentgrass on sand greens
- Major tournament tested
- High density – all seasons
- Heat & stress tolerant
- Bright, dark green color
- High disease resistance
- Winter-active growth

MARINER

CREeping BENTGRASS

Uses: Fairways, greens & tees

- #1 for salt tolerance among all bentgrasses in trials at the University of Arizona.
- Excellent heat and drought tolerance
- Good root growth in hot weather
- Developed at Texas A&M for use in the south
- Performs well in northern locations

BLENDS

FUTURA PRO

BENTGRASS BLEND

Uses : Premier choice for superior greens & tees

- Blend of MacKenzie & Tyee
- Heat & stress tolerant
- Defeats Poa annua
- Top rated for high density in all seasons
- Excellent cool weather active growth
- High disease resistance

FUTURA GREENS

BENTGRASS BLEND

Uses : Superior choice for greens, tees & fairways

- Blend of Focus, MacKenzie & Ninety-Six Two
- Genetically diverse product for superior performance
- Superior dark green color, with upright dense growth
- Excellent Dollar Spot & Brown Patch resistance
- Top ranked for density on greens
- Strong seedling vigor for fast establishment
- Cold and heat tolerance
- Excellent summer stress tolerance
- Superior close-mowing tolerance

FUTURA FAIRWAY

BENTGRASS BLEND

Uses : Fairways & reduced maintenance greens & tees

- Blend of Mariner, Ninety-Six Two & additional improved varieties
- Great performance on greens, tees & fairways – especially in stress conditions
- High fairway performance at a reduced cost
- Summer stress tolerance
- Strong root growth in the summer
- Excellent resistance to Brown Patch, Dollar Spot, Pink Snow Mold, Pythium

PICKSEED®

good things growing...
