## **Technical Data**

#### **BENEFITS**

#### • Superior Southern and Northern Turf Quality

- Resistance to Brown Patch and Gray Leaf Spot
- Aggressive Tillering and Wear Tolerance
- Drought, Stress, and Shade Tolerance

# **CROSSFIRE 4**

### TALL FESCUE

**Crossfire 4** Turf-Type Tall Fescue (IS-TF 310 SEL) performs well into the deep south and exhibits excellent cold tolerance for northern zones. Superior turf quality comes from excellent drought tolerance, wear tolerance and shade tolerance. Crossfire 4 was selected for high turf quality and Brown Patch resistance. It has a fine leaf texture and high density with excellent stress tolerance. High density cultivars often sacrifice Brown Patch resistance but Crossfire 4 is one of the best against this serious disease.
