

# Balance

## Stubble Turnip

**Balance** is a Stubble Turnip that features a leafy, upright growing habit and tankard bulb shape. This provides for easier animal transition, ease of grazing, higher utilization, reduced risk of choking, and high quantities of utilizable forage.

### Key Features

- High Yield
- High Quality Summer and Early Fall Forage
- 11.5-12.5 Metabolizable Energy
- Ideal ILeaf to Bulb Ratio(60-40)
- Good Leaf Retention
- Early Maturity (60-90 days)
