

TALL FESCUE

Bloodhound

Bloodhound - Turf-Type Tall Fescue (MET 6SEL)

will end your search for a superior tall fescue. Bloodhound is an aggressive tillering, high quality, fine textured, high density tall fescue. Aggressive tillering contributes to the high wear tolerance and rapid recovery of Bloodhound. Bloodhound shows superior Brown Patch resistance which enables it to survive the toughest weather. Whether in full sun or lounging in the shade Bloodhound provides excellent turf quality. Reduced inputs can be used and still achieve excellent quality. High levels of endophyte provide resistance to surface insects and contributes to stress tolerance.

Bloodhound is recommended for permanent turf on sports fields, lawns, parks, and golf courses. It can be cut from 1/2" to 3" and still maintain density and performance.
