

PERENNIAL RYEGRASS

Dasher 3

Dasher 3 - Perennial Ryegrass

has proven that it can perform at a high level in almost any area of the country. Dasher 3 rates high for summer stress and summer density. To complement that, Dasher 3 has shown outstanding Gray Leaf Spot and warm temperature Brown Patch resistance.

When Old Man Winter decides to show up though, Dasher 3 can handle that too. With Winter Damage resistance and Low Temperature Injury resistance ratings topping the charts, you can count on Dasher 3 to handle the wear, and tear. Excellent Crown Rust resistance improves its performance in Northern areas.
