

Technical Data

BENEFITS

- Summer Drought tolerance
- Superior Resistance to Brown Patch
- Excellent Traffic Tolerance and Recovery
- High Density, High Turf Quality

FIREWALL

TALL FESCUE

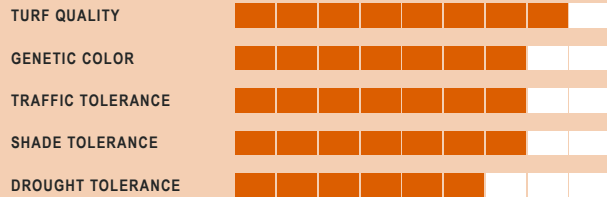

Firewall Turf-Type Tall Fescue (PS6-WE1) performs as the name implies, it creates a barrier that keeps out Brown Patch and degradation due to intense wear. The Brown Patch resistance contributes to its excellent shade tolerance. Firewall achieves all of these claims while also being top rated in turf quality at multiple locations throughout the country, ensuring that you have a top performer, no matter where you decide to use it. Firewall can also tolerate mowing heights as low as 1/2 inch, making it one of the most versatile tall fescues on the market!

PLANTING & MAINTENANCE

SEEDING RATE8-10 LBS PER 1000FT²
 GERMINATION10-14 DAYS
 MOWING FREQUENCY.....1 TIME PER WEEK
 NITROGEN REQUIRED.....LOW
 ENDOPHYTE ENHANCED.....YES

RATINGS

Poor-----Excellent
