

Technical Data

BENEFITS

- A-List Cultivar
- Superior Wear Tolerance
- Dark Green Color w/ Early Spring Green-up
- Excellent Drought Tolerance

HEIDI

KENTUCKY BLUEGRASS

Heidi A-LIST (A00-2882) Compact-type Kentucky bluegrass (*Poa pratensis*). It has a very dark green color, with superior turf quality and excellent wear tolerance. It is drought tolerant under all maintenance regimes but shows superior drought tolerance under low maintenance, as shown by being on the A-LIST. Unlike most Compact-types it has early spring green-up for a longer season of growth. Fast establishment and rapid recovery from drought or wear completes its high performance for sod growers, sports fields, golf courses and home lawns.

PLANTING & MAINTENANCE

SEEDING RATE	2-4 LBS PER 1000FT ²
GERMINATION	6-12 DAYS
MOWING FREQUENCY.....	2 TIME PER WEEK
NITROGEN REQUIRED.....	LOW
ENDOPHYTE ENHANCED.....	NO
