

# Technical Data

## BENEFITS

- A-LIST Cultivar
- Resistance to Brown Patch and Gray Leaf Spot
- Aggressive Tillering and High Rhizome Expression
- Dark Green Color

# NIGHTCRAWLER

## TALL FESCUE

**Nightcrawler** A-LIST (IS-TF 285) Turf-Type Tall Fescue is a very versatile variety that will excel in both full sun and deep shade. With aggressive rhizome production and high density, Nightcrawler is very wear tolerant and recovers rapidly from damage. Unlike some other high density cultivars, Nightcrawler was developed from progeny plots selected for Brown Patch (*Rhizoctonia solani*) resistance and turf quality in Kentucky. Drought and heat tolerance were demonstrated early in the breeding process. Whether high or low maintenance, in the sun or shade Nightcrawler performs.

### PLANTING & MAINTENANCE

SEEDING RATE .....8-10 LBS PER 1000FT<sup>2</sup>  
 GERMINATION .....10-14 DAYS  
 MOWING FREQUENCY.....1 TIME PER WEEK  
 NITROGEN REQUIRED.....LOW  
 ENDOPHYTE ENHANCED.....YES

### RATINGS

Poor-----Excellent
