- Excellent Resistance to Brown Patch and Leaf Spot
- Aggressive Tillering and Rhizomes for Recovery
- Superior Dark Green Color

# RHIZING MOON

## TALL FESCUE

**Rhizing Moon A-LIST (IS-TF 305 SEL) Turf-Type Tall Fescue** is a superior tall fescue whether for low maintenance, as it's A-LIST qualification shows, or high maintenance. In addition, it can recover from damage by both rhizomes and aggressive tillering. Under either low or high maintenance, Rhizing Moon demonstrates superior drought tolerance and recovery. Rhizing Moon is a very dark green, fine textured, high density tall fescue with superior performance from the North to the South and East to the West. It shows excellent shade tolerance and high performance in full sun. Superior Brown Patch, Leaf Spot and Pink Snow Mold resistance increases its performance. High levels of endophyte provide resistance to surface feeding insects and contribute to stress tolerance.
