HIGH YIELDS

QUICK FACTS

WINNETOU is a late heading Timothy with high dry matter yields and significantly improved forage quality. It will give high yields in each harvest all season long. It has a low tendency to produce stems after the first harvest in the spring and is resistant to disease. Winnetou exhibits good winter hardiness and is a top choice for pasture renovation.

ADAPTATION

GRAZING	EXCELLENT
HAY	EXCELLENT
SILAGE	GOOD
GREEN CHOP	GOOD
OVERSEEDING	NOT RECOMMENDED
FROST SEEDING	NOT RECOMMENDED

WINNETOU is best suited for intensive production systems such as intensive grazing or multiple hay cuttings. It is recommended in mixtures with legumes such as alfalfa (well drained soil), red clover, or birdsfoot trefoil.

Notable Features

- ✓ HIGH YIELDS
- ✓ HIGHLY PALATABLE
- ✓ HIGH QUALITY ALL SEASON
- ✓ STRONG DISEASE RESISTANCE
- ✓ COLD TOLERANT

TRIAL DATA

Palatability 2003 Grazing Trials University of Wisconsin

Variety	Avg.
Winnetou	4.0
Classic	3.8
Derby	3.5
Summit	3.4
Climax	3.2

0= 0% grazed; 3= 60%; 4=80%; 5=100%

SEEDING RATES

8-10 lbs/acre (new planting)
3-4 lbs/acre (overseeding)
